

HEALTH SUPPORT FOR ROUGH SLEEPERS DURING THE CORONAVIRUS OUTBREAK

Do you have any **new** symptoms?

The 2 MAIN symptoms are:

1. A **NEW** continuous dry cough AND/OR
2. A **fever***

*You feel hot to touch on chest or back

Shortness of breath
breathing difficulties

Virus seems to start with a **fever**, followed by a **dry cough** and then, after a week, leads to **shortness of breath** and some patients needing hospital treatment

HEALTH SUPPORT FOR ROUGH SLEEPERS DURING THE CORONAVIRUS OUTBREAK

What to do if you have any symptoms overleaf?

IF YOU HAVE SYMPTOMS?

IF YOU HAVE SOMEWHERE TO STAY

IF YOU ARE ON THE STREET

1. **Go home and stay there** for at least **7 days**
2. **Let someone know where you are**
3. **If symptoms persist or get worse call 111 or go to www.111.nhs.uk**

1. **Ask someone to phone: - 01202 451467** (this number is manned 24/7)
2. **Someone will tell you what you need to do** to protect yourself and others
3. **Let someone know where you are**

For other questions around getting off the street, call St Mungo's Street Outreach Service on 01202 315962
